Rx — PRESCRIPTION

PRESCRIBER	PATIENT
Dr. James Okafor, MD	Robert James Thompson
NPI: 1234567891	DOB: 07/22/1971
DEA: AO9876543	Insurance: Aetna Better Health PPO
License: CA G-91203	Member ID: AET-78230014
Date: 05/22/2025	MRN: BFM-2023-01142

PRESCRIBED MEDICATION

Humira (adalimumab) injection

40mg/0.4mL prefilled autoinjector pen

Sig: Initiation: 160mg SQ (four 40mg injections) on Day 1, then 80mg SQ (two 40mg injections) on Day 15, then 40mg SQ every 2 weeks thereafter.

Dispense: 2 pens (initial supply)

Refills: 5 (subject to prior authorization approval)

Route: Subcutaneous injection (thigh or abdomen)

CLINICAL JUSTIFICATION FOR PRIOR AUTHORIZATION

Indication: Rheumatoid Arthritis, moderate-to-severe (ICD-10: M06.9, M06.011).

Previous Therapies Tried and Failed:

- Methotrexate 15mg once weekly — 24 months — inadequate response
- Folic acid 1mg daily (adjunct) — concurrent with MTX
- NSAIDs — documented intolerance (GI bleed)

Current Disease Activity:

- DAS28 score: 4.8 (moderate-to-high disease activity) — assessed 05/08/2025
- CRP: 18 mg/L (elevated) — collected 05/08/2025
- ESR: 42 mm/hr (elevated) — collected 05/08/2025
- CBC and LFTs: within normal limits — no contraindication to biologic therapy
- TB screening: negative (QuantiFERON-TB Gold) — 03/14/2025

Clinical Rationale: Patient has moderate-to-severe RA with persistent high disease activity despite 24 months of maximum-dose Methotrexate therapy. Per ACR 2024 Treatment Guidelines, a TNF inhibitor is indicated for patients with moderate-to-severe RA inadequately controlled on conventional DMARDs. Adalimumab (Humira) selected due to established safety profile and cardiovascular risk profile. Negative TB screen documented. Baseline labs confirm no organ dysfunction.

PRIOR AUTHORIZATION — KEY FIELDS SUMMARY

Field	Value
Patient Name	Robert James Thompson
Date of Birth	07/22/1971
Insurance / Payer	Aetna Better Health PPO
Member ID	AET-78230014
Group Number	GRP-AET-3301
Primary Diagnosis (ICD-10)	M06.9 — Rheumatoid arthritis, unspecified
Secondary Diagnosis (ICD-10)	M06.011 — RA with RF of right shoulder
Requested Drug	Humira (adalimumab) 40mg/0.4mL autoinjector
Drug NDC	0074-3799-02
Prescribing Physician	Dr. James Okafor, MD
NPI	1234567891
Clinic Name	Bayview Family Medical Group

Clinic Phone	(415) 555-0192
Clinic Fax	(415) 555-0193
DAS28 Score	4.8 (moderate-to-high activity)
TB Screening	Negative (QuantiFERON-TB Gold, 03/14/2025)
Clinical Urgency	Routine
Date of Request	05/22/2025
